SPECIALIZED PROJECTS

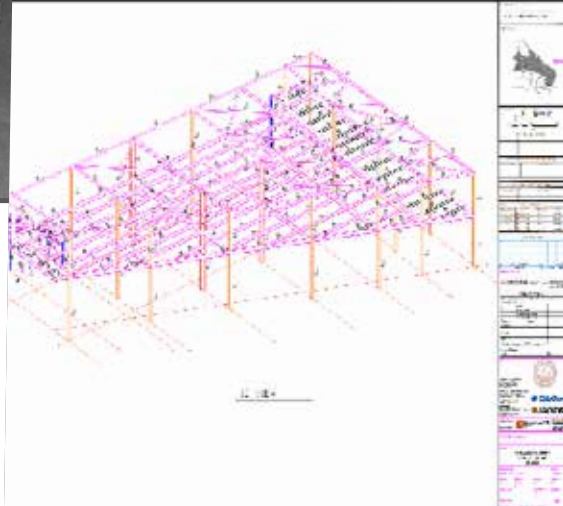

REQAZ provides full services for public buildings & facilities projects. Our work divers from public schools, hospitals, and various government buildings. Serving these projects demands with an expert of engineering team.

COMMERCIAL & INDUSTRIAL PROJECTS

Understanding the needs usually come with type of projects; Laying and placing in position all different elements of the infrastructure required. from electrical (low & high voltage), plumbing network, fire fighting, low current and climate control. In addition, running these systems in place.

METAL STRUCTURES

No matter your application for a warehouses, factory plants, showrooms, strip malls or offices the Metal structures can be a very effective and fast way to provide what you need from strength durability and even the customization of your needs.

REQAZ has more than a decade of experience in working in metal structures projects. we ensure the success of your project.

PRE-ENGINEERED BUILDING SYSTEMS (PEB)

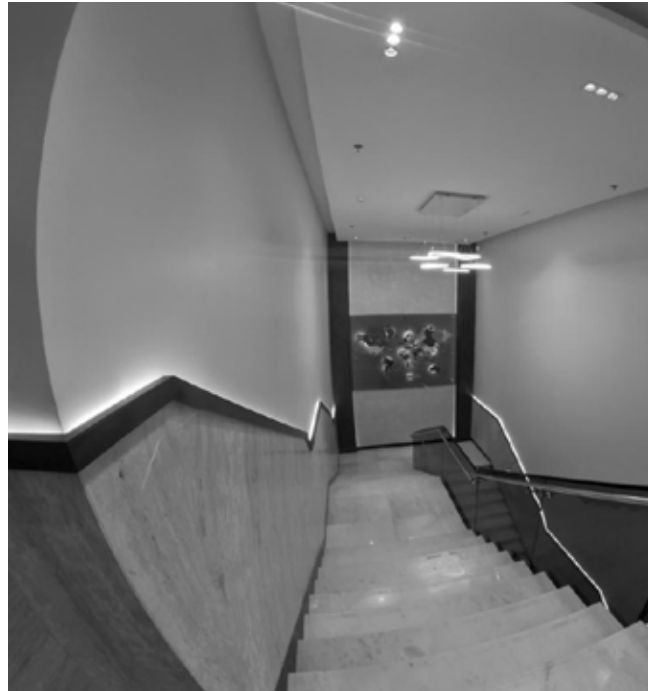

REQAZ are Leaders in installation of Pre-engineered buildings, it is a built up sections buildings designed and crafted to order, and it easy to assemble quickly and correctly: floors, fascia, canopies and crane systems as per user requirement.

helping you plan your projects within your desired timeline ensuring fast & successful delivery.

GENERAL & RESEDINTIAL BUILDINGS

REQAZ, offer three services: building Extension, building Renovation, and services as a New Build Contractor. All three of these services are underpinned by our precise planning process to ensure you get the perfect product at the end, and a great experience throughout.

INTERIOR DESIGN & FINISHES

REQAZ we offer Interiors design with a wide range of services to address our customer's fit-out and interior design requirements. We provide the best interiors & finishing solutions that are not only pleasing but also practical and effective to the people working or living in those spaces.

MOBILIZATION AND INFRASTRUCTURE

Every job is different. REQAZ specializes in creating customized solutions, so every aspect of your project is tailored to your specific needs. With extensive experience in project mobilization and infrastructure requirements, we make it easy to deliver innovative and imaginative products on time and on budget. REQAZ provides Design and Planning or even end-to-end management for all of your project needs.

PRE-FABRICATED TEMPORARY FACILITIES

Any project startup needs a temporary facilities that can provide essential needs. We design manufacture and implement the highest standard facilities for: Accommodation, Offices, Mosque, Toilets, Medical clinics, Cafeterias, Warehouses...etc.

PRE-FABRICATED FACILITIES

Wide range of sandwich panel cabins. We offer safest and fastest delivery of our puff sandwich panel facilities to our customers across the Kingdom. it can provide for offices, temperature controlled Storage warehouses, accommodation, Medical Clinics and many other application. Our system Easily assembled & fastly delivered.

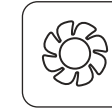

MECHANICAL, ELECTRICAL & PLUMBING WORK

REQAZ offers mechanical, electrical, and plumbing engineering for all types of buildings, transportation facilities and industry projects according to our clients' specific requirements. We work in close collaboration with the entire project team, ensuring optimal integration of all systems.

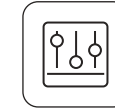

In addition, REQAZ specializes in Low current & control systems ensuring the successful implementation from planning stage until final integration.
